Minutes of the meeting № 1 from August 28, 2023.

Head of Department _____ I.A. Tropina

Library Director: "Agreed"

«___» _____ 2023 г. _____ I.A. Kravchenko

I. THE PURPOSE AND OBJECTIVES OF THE DISCIPLINE ACQUISITION

1.1. The purpose of the discipline acquisition

The purpose of mastering the discipline "Foreign language (Russian)" is the formation of communicative competence, i.e. the ability and willingness to carry out interpersonal and intercultural communication with native speakers of the Russian language, i.e.

- the development of skills and abilities of effective speech behavior in various situations of everyday communication;
- mastering written and oral forms of communication in Russian as a means of information activities and further self-education;
- formation of a modern linguistic personality;
- improving the general speech culture of medical students;
- formation of the basics of foreign language competence necessary in the future for professional intercultural communication.

1.2. Objectives of studying the discipline:

- students` preparation to live and study in the Russian language environment;
- language skills development (phonetics, spelling, vocabulary, grammar) in accordance with the topics and communication situations chosen for elementary level of education;
- communication skills development for basic types of language activity (speaking, listening, reading, writing);
- students` familiarization with culture, traditions and real facts of life of the foreign language country within the framework of the topics, fields of study and communication situations corresponding to the experience, interests and psychological features of the students;
- development of the ability to represent their country of origin, its culture in the intercultural foreign language communication;
- gaining the ability to find the way out in the situation when the students lack the language means when receiving and transferring information;
- familiarization with accessible ways of independent learning of languages and cultures, with the usage of new information technologies.

II. REQUIREMENTS TO THE RESULTS OF DISCIPLINE ACQUISITION

The study of this academic discipline is aimed at the formation of universal competence (UC) of students in accordance with the Federal State Educational System of Higher Education and Educational Programme of Higher Education in this speciality:

UC-4 the ability to apply modern communication technologies, including in a foreign language(-s), for academic and professional interaction, the achievement indicators of which are:

- AI 1 the ability to use verbal and nonverbal means of communication and to choose the most effective ones for academic and professional interaction;
- AI 2 the ability to observe generally accepted norms of communication and to express opinion (judgment), as well as in discussion, dialogue, etc.;
- AI 3 the ability to communicate in a foreign language in the process of academic and professional interaction, to use medical terminology, in a foreign language(-s) as well;
- AI 4 the ability to use modern information and communication tools and technologies.

As a result of acquisition of the discipline, the student should:

know the language system of the Russian language at the elementary level (phonetics, vocabulary, word formation, morphology, syntax);

be able

- to use at the elementary level the studied phonetic, lexical, morphological and syntactic units in various types of speech activity (reading, writing, listening, speaking) in accordance with the speech situations;
- carry out at the elementary level speech communication in the social and socio-cultural spheres of communication and types of speech activity (reading, writing, listening, speaking) in accordance with the communicative needs;
- use 300 lexical units;
- get information from different sources together with the usage of modern computer means, network technologies, data basis;

be proficient

- in practical activities and in everyday life;
- in obtaining, storing and processing new information.

III. PLACE OF DISCIPLINE IN THE STRUCTURE OF EDUCATIONAL PROGRAMME OF HIGHER EDUCATION

3.1. Foreign Language (Russian) discipline refers to the cycle of humanitarian disciplines.

Foreign students are taught on the basis of the continuity of knowledge and skills acquired in general education institutions during the study of their native language and a foreign language. It is a prior for studying disciplines: Russian language, Language speciality, as well as the subsequent study of the majority of professional disciplines.
